FOREWORDS

The “Bibliography” document has been conceived as a repository of existing references illustrating the state of the art regarding climate resilience in the scientific and specialised literature. This document completes the important amount of information generated in the “Shared Knowledge Basis Report” (deliverable 1.2).

The documents “Basis knowledge Report” (deliverable 1.2) and “Bibliography” (deliverable 1.2.b) carried out jointly by all partners of the project “Empowering Climate Resilience” are the reference documents to establish the state of the art on Climate Resilience and therefore, for the construction of the CARE Cmap 1.0.

The bibliography is presented in this document is organized in alphabetical order.

BIBLIOGRAPHY

Author(s)	Academia de Ciencias Uruguay, Coordination and editing: Adriana Piperno, Federico Quintans and Daniel Conde.
Title	Urban water in Uruguay: progress and challenges towards integrated management in Urban water challenges in the Americas. Perspective of the Academies of Sciences. Pp 542-574
Year	2015
Review/book	http://www.ianas.org/books/books_2015/water/agua_urbana_210315.pdf
Publisher	IANA y UNESCO
Country of publication	México and France
